This diagram shows a cross-sectional view of a second embodiment of the device. It features a substrate 51 with a top surface 52. A thin layer 53 is disposed on the top surface 52. A second conductive layer 54 is disposed on the top surface 52, with a portion of it being in direct contact with the thin layer 53. The second conductive layer 54 is shown as two separate rectangular blocks.

This cross-sectional view shows a substrate 51 with a trench 58. A first layer 54 is deposited on the substrate, and a second layer 55 is deposited on top of the first layer. The second layer 55 is shown as a thin layer that covers the bottom and side walls of the trench 58.
